14th Pesticide Workshop
Center for Analytical Chemistry

The 14th Pesticide Workshop of the Center for Analytical Chemistry is being held April 4-8, 2004 at the Asilomar Conference Grounds in Pacific Grove, California. This is located on the outskirts of Monterey, California.

The major emphasis of the conference is the analytical determination of pesticide residues especially by HPLC-MS and other new MS technologies. For workshop and location information please see our website at www.cdfa.ca.gov and the conference center website at www.visitasilomar.com.

We would like to invite you to participate in making this workshop a success by joining us as both an exhibitor and sponsor of the conference. General Exhibitors will be accorded a 6' display table in the main conference room for Monday (4/5/04) and Tuesday (4/6/04). Four separate conference buildings, which can seat 30+ attendees, in proximity of the main conference room are reserved for HPLC-MS Exhibitors for Monday and Tuesday. On Wednesday morning and afternoon the separate conference buildings will be available to the General Exhibitors in 4 hour blocks. The separate buildings may be used for exhibitor demonstrations, seminars or training courses. The HPLC-MS Exhibitors holding the separate conference buildings will participate in Monday evening presentations on their new technologies involving the Mass Spectra instrumentation being displayed as a part of the Monday training course on the Deconvolution of MS data. This evening program will follow an upgraded buffet dinner with desert served in the conference buildings.

The schedule of exhibitor fees is as follow:

General Exhibitor — \$1500
HPLC-MS Exhibitor with Conference Building — \$2500
General Exhibitor – Conference Building (4 hours on Wednesday AM or PM) — \$500
